

Nano Sized Full Raman Spectrometers: Towards the Widespread of Raman Detection and SERs

**A + B: 785 nm, 830 nm
excitations Belt Wearables;
Other Excitations + Tunable
Excitations Available**

**D: The Crimson Tide
645nm/630nm Excitations
Keyfobe**

**C: 785 nm; 810 nm 830
nm Excitations Keyfobes**

- **A + B: Belt Wearable Raman-Side and Top Sampling**
- **C + D: Keyfobes of different excitation wavelengths**
